ITS TRANSMISSION OF THE SEVELATION OF THE SEVELATION OF THE SEVE THIS IS UNEVALUATED INFORMATION The transfer of the complete contract *See bolow 25X1 The Yugoslav Embassy in Mexico City has reversed its former attitude toward the Korean crisis and has adopted one of unconditional support of American military intervention. During the first weeks of military activity the Embassy assumed the position of the Yugoslav government, that the question was one of civil war hence that the Yugoslav representative to the United Nations properly abstained from voting on the matter. Reason for the change of attitude is allegedly the establishment of the fact that the USSR is aiding the North Koreans for reasons 25X1 dictated by its own policy. The Secretary of the Yugoslav Embassy, Stepjan Senekovic, is reported to be confused on the Korean issue. While his doctrinary studies have channeled his mind to believe that at this time the capitalist states should be engaged in destroying one another, he also states that the USSN is making use of every weapon at its disposition to eliminate all the capitalist states. On the one hand he feels that war between the USSR and the capitalistic states is not imminent and that the Korean situation is merely a test similar to the Spanish Civil War; on the other hand he feels that Yugoslavia is in great danger from the USS: and has even asked whether, in the event of war against Yugoslavia, Spanish Republicans would volunteer to fight in its defense.
